

EDUCATION

Yonsei University M.A. in Economics Expected Aug. 2027	Mar. 2023–Present
Korea University B.S. in Mathematics Expected Feb. 2027 National Institute for Lifelong Education	Sep. 2019–Present
Yonsei University Ph.D. Candidate in Urban Planning and Engineering Real Estate and Regional Development Lab	Sep. 2019–Feb. 2023
Yonsei University B.S. in Civil and Environmental Engineering Undergraduate Thesis: A Study on Valuation Methods for Green Buildings	Mar. 2015–Aug. 2019

RESEARCH INTERESTS

Industrial Organization; International Finance; Information Economics; Microeconometrics

WORKING PAPERS & RESEARCH IN PROGRESS

The Currency Forward Rate Bias of Emerging Market Economies and the Original Sin

With JungJae Park, Saerang Song

Summary. This paper shows that higher foreign exchange reserves increase a currency's forward rate bias (FRB), improving currency safety and encouraging greater issuance of local-currency sovereign debt, thereby mitigating emerging markets' "original sin."

Identifying Sources of Inefficiency in Cesarean Delivery: Evidence from Korea

With Yoonji Choi, Yongwoo Park

Summary. This study examines whether hospital-level variation in cesarean delivery in Korea reflects comparative advantage or allocative inefficiency, using nationwide health insurance data and a Roy-model-based framework.

The direction of AI innovation and occupational employment: Patent-based evidence from Korea

Sole-authored (Submitted, *Labour Economics*)

Summary. This paper shows that the direction of AI innovation matters for employment: expertise-leveling AI is associated with weaker high-skill employment, while assistance-oriented AI is linked to stronger middle-skill employment, even when overall AI innovation is held constant.

Contribution. Patent-data construction, industry matching, and empirical analysis based LLM Model.

Spatial Competition in the Plastic Surgery Retail Market: Evidence from a Korean Plastic Surgery Platform

With InKyoung Kim (*Sogang University*)

Summary. Spatial analysis of competition between plastic-surgery providers (GP versus SP) using evidence from a Korean plastic-surgery online platform.

AWARDS & GRANTS

Graduate Student Research Grant, National Research Foundation of Korea	2025–2026
Honorable Mention, Maeil Business Newspaper Thesis Award	2025
Third Prize, Korea Health Panel Survey Conference	2024
Institute of Convergence Science Scholarship, Yonsei University	2024
Brain Korea 21 Scholarship, Yonsei University	2023–Aug. 2026
Research Funding, Sundo Software (geospatial software company); Geo AI Program, Korea Land and Geospatial Informatix Corporation	Winter 2023

Excellence Prize, Data Youth Campus, Korea Data Agency	2021
Graduate Research Team Support Program for Female Students in Engineering, Ministry of Science and ICT	2021
Graduate Student Research Support Program ‘Guktoseowon’, Korea Research Institute for Human Settlements	2021
Research Competition, Incheon Institute	2021
Smart City Talent Development Scholarship, Yonsei University	2019–2023
Undergraduate Merit-Based Scholarship, Yonsei University	2015, 2016

CONFERENCE PRESENTATIONS

Asia Pacific International Industrial Organization Conference, Seoul, Korea	2024
Korean Association of Industrial Organization Conference, Kyoto, Japan	2024
Korea Planners Association Annual Spring Online Meeting	2020–2021

RESEARCH EXPERIENCE

Government & Company

POLICY

Korea Asset Management Corporation (KAMCO) Nov.2025–Sep. 2026
Research Assistant

Advisory on Redefining the Role of Korea Asset Management Corporation (KAMCO) to Strengthen Domestic Market Crisis Response and Competitiveness.

Contribution. Supported research to strengthen the domestic nonperforming-loan market's crisis-response capacity through market diagnosis, issue-specific strategy design, and execution validation.

Korean Women's Development Institute (KWDI) Aug.2025–Present
Research Survey Assistant

Analysis of the Causes of the Gender Wage Gap in Public Institutions and Improvement Measures, Analysis of the Economic Effects of Expanding Women's Economic Activity.

Contribution. Analyzed survey data and assisted with research reports

Korea Research Institute for Vocational Education and Training 2025
Research Assistant

The Impact of Future Environmental Changes on Employment.

Contribution. Generated foundational data for predicting future workforce demand in emerging technology fields.

Korea Minimum Wage Commission Dec. 2022–Present
Research Assistant

Analysis Report on the Survey of the Effects of the 2023 and 2024 Minimum Wage Implementation.

Report series. Report on the Analysis of the Survey on the Effects of Minimum Wage Implementation (2023–2026).

Korea Research Institute for Vocational Education and Training 2024
Research Assistant

Forecasting Workforce Demand in Emerging Technologies Using Patent Information: Artificial Intelligence, Big Data, and Intelligent Semiconductors.

Contribution. Organized Korean AI patent data and matched them with Value Search's company financial data by industry to support panel vector autoregression analysis.

Ministry of Employment and Labor

Jun.–Dec. 2023

Research Assistant

The Employment Effects of Open Data Access and Utilization Support Policies.

Contribution. Analyzed the employment effects of public data utilization by merging company lists from the Employment Insurance Database, Korea Enterprise Data, and the 2022 Survey on Public Data Utilization Companies (conducted by NIA), using business registration numbers.

Ministry of Science and ICT

Mar.–Dec. 2021

Principal Investigator

Analysis of Pedestrian Activity Enhancement in Urban Railway Sites Using Space Syntax and Agent-Based Modeling.

Participated in the Graduate Research Team Support Program for Female Students in Engineering, funded by the Ministry of Science and ICT.

Korea Development Institute (KDI)

2020

Research Assistant

Demand and Benefit Estimation for the Preliminary Feasibility Study of the Naju Energy National Industrial Complex Development Project for Public Institutions.

Korea Development Institute (KDI)

2020

Research Assistant

Demand and Benefit Estimation Techniques for Enhancing the Analysis Methodology of Preliminary Feasibility Studies for Industrial Complex Projects.

Ministry of Land, Infrastructure and Transport (MOLIT)

2019

Research Assistant

Development of 3D Printing Design, Materials, and Equipment for Small Structures and Non-Standard Components.

Funded by the Ministry of Land, Infrastructure and Transport (MOLIT).

Research Experience / Government & Company (continued)**CONSULTING**

Company-linked and technical consulting projects

NAVER

2020–2022

Research Assistant

Development and Implementation of a Robot-Friendly Building Certification System.

Contribution. Contributed to the development of a building certification system for robot-friendly structures for NAVER's second headquarters.

Korea Agency for Infrastructure Technology Advancement (KAIA) and Kakao Mobility

Mar. 2021–Mar. 2022

Research Assistant

Smart Shared Personal Mobility Solutions for the Community.

Funded by the Korea Agency for Infrastructure Technology Advancement (KAIA) and Kakao Mobility.

HOMES(Proptech and co-living startup)

Mar.–Dec. 2020

Research Assistant

Creation of the Seoul Single-Person Household Map.

Contribution. Participated in the development of a location-selection toy model for the co-living startup HOMES. Analyzed profitable development areas for single-person households in Seoul by applying machine learning to public data.

Post-PyeongChang Winter Olympics Peace Theme Park

2019

Research Assistant

Project Feasibility Study and Master Plan Development for the Post-PyeongChang Winter Olympics Peace Theme Park.

TEACHING EXPERIENCE**Yonsei University | Teaching Assistant**

International Finance (undergraduate)

2026

Information Economics (graduate)

2026

Econometrics 1 (undergraduate)

Fall 2025

Personnel Economics (undergraduate)	2025
Behavioral Economics (undergraduate, graduate)	Fall 2024–Present
Contract Theory (undergraduate)	Fall 2024
Principles of Macroeconomics (undergraduate)	Fall 2023–Present
Shinhan Bank - Future Academy (Finance Track)	Fall 2024
Microeconomics (undergraduate, MBA)	2023–Spring 2025
Labor Economics (undergraduate, graduate)	2023–Spring 2025
Introduction to Programming for Economics (undergraduate)	2023, 2024
Introduction to Statistics (undergraduate)	Fall 2023
Introduction to Programming (undergraduate)	Fall 2022
Chapel (graduate)	2022–2023

ENGINEERING

Urban Planning and Environmental Law (undergraduate)	Fall 2021
Real Estate Development Analysis (undergraduate)	Spring 2021
Real Estate Market Analysis and Policy (undergraduate)	Fall 2020
Spatial Analysis and Location Theory (graduate)	Spring 2020
Ecological Engineering (undergraduate, TA as an Undergraduate Student)	2016

OTHER ACADEMIC ACTIVITIES

Yonsei Microeconomics Reading Group

Spring 2023–Present

Graduate Assistant; weekly; YMRG

A faculty-led reading group organizing seminars, workshops, and special lectures in microeconomic theory.

Presented papers. “Segmentation versus Agglomeration: Competition between Platforms with Competitive Sellers” (Karle et al., JPE, 2020); “Left-Digit Bias at Lyft” (List et al., Review of Economic Studies, 2023); “Image versus Information: Changing Societal Norms and Optimal Privacy” (Ali and Bénabou, AEJ: Microeconomics, 2020); “Hybrid Marketplaces with Free Entry of Sellers” (Etro, Review of Industrial Organization, 2023); “Procrastination Markets” (Heidhues, Kőszegi, and Murooka, working paper, 2024); “Copyright Policy Options for Generative Artificial Intelligence” (Gans, working paper, 2024); “Motivated Errors” (Exley and Kessler, AER, 2024); “Pricing for Coordination” (Halac, Lipnowski, and Rappoport, working paper, 2024); “Market Power in Artificial Intelligence” (Gans, NBER Working Paper, 2024); “Persuasion Meets Delegation” (Kolotilin and Zapechelnnyuk, Econometrica, 2025); “Efficient iBF: Balanced Integration of Fragmented Matching Markets for Welfare Improvement” (Kamada and Kojima, working paper, 2026).

Yonsei Structural Economics Reading Group (YSERG)

Spring 2026–Present

Monthly; YSERG

A reading group on theory-based structural empirical research.

Health Economics Reading Group (HERG)

Spring 2025–Present

Biweekly

A reading group focused on recent empirical research in health economics, including papers published in leading economics journals.

Presented papers. “Targeting Precision Medicine: Evidence from Prenatal Screening” (Conner et al., Journal of Political Economy, 2025); “A New Look at Physicians’ Responses to Financial Incentives: Quality of Care, Practice Characteristics, and Motivations” (Brosig-Koch et al., Journal of Health Economics, 2024). “Should We Prevent Off-Label Drug Prescriptions? Empirical Evidence from France” (Tunçel, Review of Economic Studies, 2025).

Yonsei Applied Microeconomics Reading Group

Fall 2024–Present

Monthly; YAMRG

A faculty-led reading group featuring presentations of seminal papers in applied microeconomics and student-led sessions for sharing ongoing research.

Presented paper. “What’s Trending in Difference-in-Differences? A Synthesis of the Recent Econometrics Literature” (Journal of Econometrics, 2023).

Econometrics Meeting

Fall 2023–Spring 2024

Weekly

Read and presented summaries of econometric theory books (Asymptotic Theory for Econometricians, written by Halbert White) and participated in econometrics-related research meetings.

Yonsei Macro-Finance-International Reading Group

2023, Spring 2026

Monthly; YMFIRG

A faculty-led reading group engaging with core topics in macroeconomics.

Presented papers. “Does Climate Change Affect Real Estate Prices? Only If You Believe in It” (Review of Financial Studies, 2020); “How Segregated Is Urban Consumption?” (JPE, 2019).

Real Estate and Regional Development Lab, Yonsei University

Fall 2018

Undergraduate Research Intern

Organized and cleaned real-estate datasets for research projects.

Construction Robot and Automation Lab (CORAL), Yonsei University

Spring 2018

Undergraduate Research Intern; Prof. Jung-Hoon Kim

Created 3D architectural models using Rhinoceros 3D and assisted with construction-automation research.

ACADEMIC SERVICE

Journal Editorial Assistant, Institute of East and West Studies (IEWS)

2024

COMMUNITY SERVICE

NASA Space Apps Challenge, NASA

Fall 2025

Vice President, Graduate Student Council, Yonsei University

2024

Member, Park Lab, Korea Forest Service Data Science Lab

2023–Present

Education Volunteer Program, Bangladesh

Winter 2015

SKILLS & LANGUAGES

Software: Stata, Python, R, SAS, MATLAB, Mathematica, QGIS, ArcGIS, Rhino(CAD), LaTeX.**Languages:** Korean (native), English (fluent).
